

Why Reigncane?

DISTILLED FROM ORGANIC SUGAR CANE

PROOFED WITH NATURALLY PURE ALASKAN WATER

FILTERED FOR 3.5 DAYS OVER COCONUT HUSK CHARCOAL

An Unmatched Taste Experience

First Batched In 2018

After finding the source of water in Alaska back in 2016, a high-end bottled water idea turned into a much more fun beverage. When we decided to make vodka; our goal was to make the best tasting vodka possible. We chose organic sugar cane after it won our blind taste tests and gave Reigncane a super smooth finish with our post distillation filtering process. Please enjoy some Reigncane on the rocks to appreciate the quality.
